

**All Ways Inspect, founded
on the following principles:**

We follow and adhere to the professional standards, ethics and practices of our profession, the state regulations where we are licensed and to the organizations and societies to which we belong. We pride ourselves on providing thorough and complete home and building inspections, testing and auditing services. We perform our duties and write our reports without bias or prejudice. We make every effort to educate and inform our clients about the inspection process, testing methods and procedures followed, in order to create a more satisfying and interactive experience. We believe the more knowledgeable our clients are, the more comfortable and confident they will be as home owners.

We have NO conflicts of interest.
We work ONLY for you, our client.
